

Senior Lawyer with Focus Platforms & Transaction Banking having Capital Markets / IB Experience

For a very renowned Swiss Bank based in Zurich we are looking for a dynamic, independent and versatile lawyer with a convincing appearance and interest in technological developments as well as willingness to take on responsible and challenging tasks in a broad international legal environment.

In-depth expertise in capital markets and financing (private and public placements) as well as interest in blockchain technology are important for this position.

- Central contact person for the bank's internal business partners for legal issues related to the bank's digital platforms for private placements, loans and products, also internationally
- Independent legal support of the day-to-day business related to the platform services
- Independent legal advice and support in projects for the further development of the platform services
- Legal advice to the bank's internal business partners in connection with cryptocurrencies, tokens and blockchain technology
- Legal advice and support of day-to-day operations and projects of transaction banking, which provides, among others, global custody and global execution services to third-party banks
- Legal reviews and advice in relation to trading venue connections
- Drafting, reviewing and negotiating all types of contracts
- Simplification as well as monitoring and improving the quality of documentation
- Monitoring, internal communication and implementation of legal and regulatory developments in Switzerland and abroad
- Regular review and improvement of internal processes
- Close cooperation with other legal departments, exchange of know-how

You bring

- Degree from a Swiss university (licentiate or master in law)
- Swiss bar exam is an advantage
- At least 5 - 6 years of relevant work experience as a lawyer in a financial services company or in a commercial law firm with a focus on capital markets law and/or investment or transaction banking
- Technical flair and interest in new technologies and digitalization in finance
- Very good oral and written communication skills in German and English, French or another national language would be an advantage

Your are

- Independent, conscientious and structured way of working with good communication skills
- Team player
- Flexible and creative thinking person with hands-on mentality
- Due to the direct contact with the front line, assertiveness, resilience and professionalism as well as a convincing appearance are required
